Head office : 1706, FuLi Building, NO.97, JiuCaiYuan Road, FuRong District, Changsha, Hunan, China.

Factory:ZhangWan Science and technology Park, FuQiang Road, DaiNan Town, Xinghua, Jiangsu, China.

HUNAN ANLLIANZ METAL PRODUCTS CO.,LTD

- **TOUCHING CUSTOMERS BY SERVICE! CREATING VALUE FOR CUSTOMERS!**
- With sales of stainless steel plate as the core of service providers.
- Providing the stainless steel material processing and production services.
- The lower price, one-stop shopping center.
- Providing after-sales quality assurance services for all products.
- Accept letter of credit at sight and credit financial services.
- 21 years of factory experience, the top 500 global suppliers.

About US

Hunan Allianz Metal products CO.,LTD, established in 1996, which enjoys good fame in the domestic modern integrated stainless steel enterprises. We have provided high-quality products and professional service to 26 provinces of more than 10000 of customers in China and more than 60 countries in the world, Europe, North&South-America, Southeast Asia, Africa, Oceania.

We took part in PH2 project in Hungary, Wartsila shipbuilding project in Spain and Nitric acid line installation project in Lithuania.

Our stock is over 6000 tons, including stainless steel coil&sheet, stainless steel welded&seamless pipe, stainless steel angles, bars, C-channels, I beams; The main grades of steel are 201, 202, 304, 304L, 316L, 309, 321, 310S, duplex stainless steel grade 2205, 2304, 2101, 2507, and the high nickel alloy steel grade 9044L, 800H, 600H. Best delivery time will be within 3 days if for common products. We also provide with customized and fabrication service, such as punching, tangential, edge grinding and welding etc.

After 21 years of development, our business grow from traditional industries to other new tech fields like oil and petrochemical, new energy, biological medicine, electronic communications, mechanical engineering, special shipping, rail transportation, aviation and aerospace.

Supplier

● Korean shipbuilding project

● Maldives Desalination project

● Singapore municipal project

● Brunei cross-sea bridge project

● Kuwait sewage treatment project

Project Case

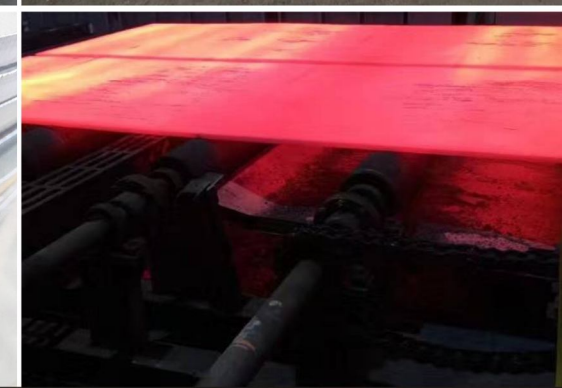

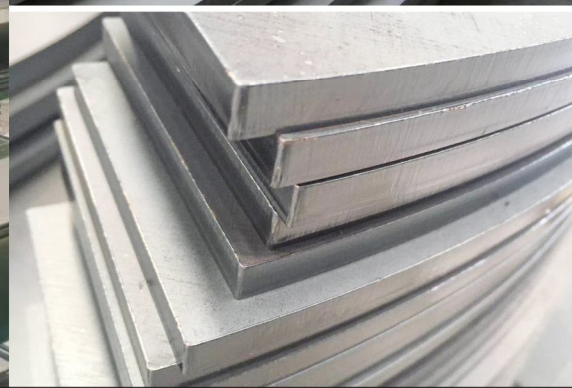

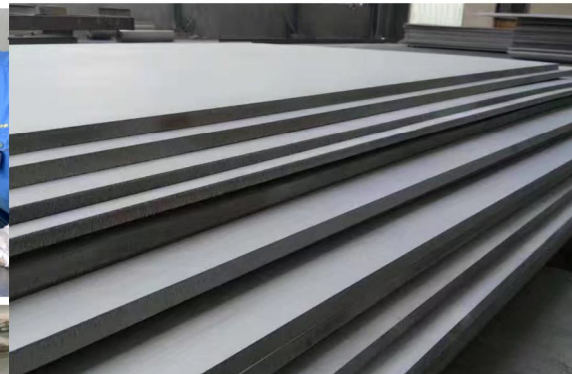

01

Stainless steel sheet and plate

We can provide you with stainless steel in your customized specifications, our annual production capacity has reached 100000 tons. Besides domestic markets, about 70% of our products are exported to all over the world directly and through trading agents.

- ★ The sizes of or thicknesses of stainless steel coil can be customized.
- ★ All standard products are supplied without inter paper&PVC film.

Standard	JIS AISI ASTM GB DIN
Material Origin	TISCO,BAOSTEEL,JISCO,Zps,LISCO
Grade	200/300/400 Series/Duplex stainless steel
Thickness	0.2mm~150mm
Width	10mm~2500mm
Length	According to clients' requirement
Surface Finish	BA, 2B, 2D, 4K, 6K, 8K, NO.4, HL, SB, Embossed
Technique	Cold rolled, Hot rolled
Application	Be used in manufacture of medical equipment, auto parts, heat-resistant kitchen utensils, electrical accessories, construction decoration,etc.
Loading Port	Port Shanghai

02

Stainless steel coil

Allianz supplies stainless steel coil in various grades and sizes. These stainless steels are either hot rolled or cold rolled, varying in thickness from 0.5mm to 80mm. By adding various elements, we can create different types of stainless steel, including the duplex steel, austenitic steel, ferritic stainless steel, and nickel-based alloys, etc.

Basic Types	Grades	Thickness	Surface Finish	Material Origin
Austenitic Steel	201	0.4~14MM	2B, NO.4, NO.1	Baosteel/HongWang
Austenitic Steel	304,304L,304J1,321	0.4~14MM	2B, BA, NO.4, 8K, SB, HL, NO.1	Tisco/Baosteel/Zpss
Austenitic Steel	317L,316Ti	0.5~14MM	2B, BA, NO.4, 8K, SB, HL, NO.1	Tisco/Tsingshan
Austenitic Steel	410,420,430	0.4~14MM	2B, NO.4, NO.1	Tisco/Baosteel
Nickel-based Alloys	800/800H/800HT	3.0~14MM	2B, NO.1	Nippon/VDM
Nickel-based Alloys	825(NO8825)	0.8~14MM	2B, NO.1	Nippon/ATI/SMC/VDM
Nickel-based Alloys	600(NO6600)	1.5~14MM	2B, NO.1	Nippon/ATI/SMC/VDM
Nickel-based Alloys	625(NO625)	0.8~14MM	2B, NO.1	Haynes/SMC/VDM
Nickel-based Alloys	400(NO4400)	3.0~14MM	2B, NO.1	Nippon Yakin Kogyo
Nickel-based Alloys	C276	1.0~14MM	2B, NO.1	ATI/SMC/Haynes/VDM
Super-austenitic Steel	317L	0.5~14MM	2B, NO.1	Tisco/Baosteel/Zpss
Super-austenitic Steel	904L	1.5~14MM	2B, NO.1	Tisco/Japan/VDM/Sweden
6-Mo Steel	254SMO	0.6~14MM	2B, NO.1	Tisco/Nippon/Yakin Kogyo/Ouyokump/VDM
Titanium	TA2/Gr2	4.0~14MM	2B, NO.1	Baosteel/Wtt/Baoti
Heat-resistant Steel	309s	0.5~14MM	2B, NO.1	Tisco/Zpss/South Africa
Heat-resistant Steel	310s	0.8~14MM	2B, NO.1	Tisco/Zpss
Duplex Stainless Steel	2205/31803	1.5~14MM	2B, NO.1	Tisco/Baosteel/Japan/Europe
Duplex Stainless Steel	2507/s32750	3.0~14MM	2B, NO.1	Tisco/Baosteel/Japan/Europe

03

Stainless Steel Construction Pipe

Hunan Allianz Metal Products CO.,LTD is one of the largest manufactures of stainless steel tubes and pipes, fittings, and flanges. With an annual capacity of 35000 tons of stainless steel pipes and tubes, we can supply pipes and tubing in $\Phi 6\text{mm}\sim\Phi 762\text{mm}$ diameter with 0.5~70mm thickness.

Manufacturing Facilities

$\Phi 50\sim\Phi 250\text{mm}$ piercing mill, LG30~LG450 cold rolling machine, YLB5T~YLB1000T high precision hydraulic cold drawing machine, borehole drilling machine, annealing furnace(that operates on natural gas), SG711M automatic welding machine, etc.

With that equipment, we can produce various shapes and profiles of seamless steel pipes and tubes that meet GB, ASTM, DIN, and JIS standards popular choices are shapes.

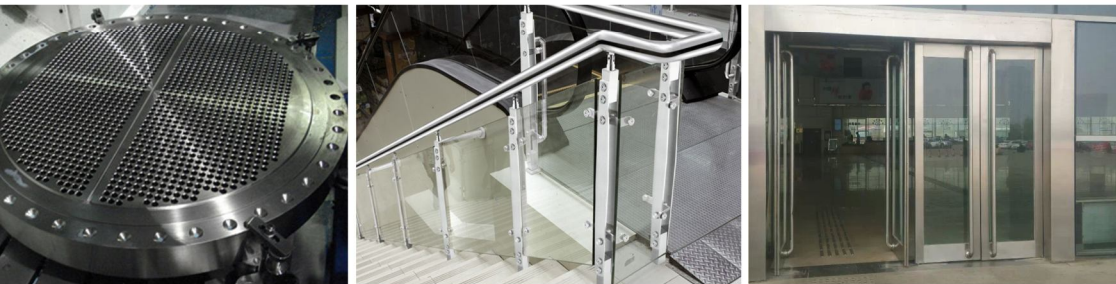

Inspection & Test Facilities

Ultrasonic flaw detector, eddy current flaw detector direct-reading spectrometer, material testing machine, im detector, etc.

Over the years, Allianz has worked with many customers across industries, including Dongfang Boiler Group, Qinshan Nuclear Power Station, and Shanghai Bolier Co.,Ltd, just to name a few the number of industries we serve is vast and includes those of petroleum, chemical engineering, nuclear power, and boiler industries.

Stainless Steel Decorative Pipe and Tube

Allianz is a professional stainless steel tube and pipe manufacturer. We can build stainless steel tubes and pipes to a variety of standards, including GR, ASTM, JIS, and EN. Different tube and pipe shapes are available as well, including round, square, rectangular and more. Our in-house manufacturing capability allows us to produce 25000 tons of stainless steel welded tube and pipe every year, in $\Phi 15\text{mm} \sim \Phi 2200\text{mm}$ diameter and 0.5~80mm thickness.

Stainless Steel Fittings

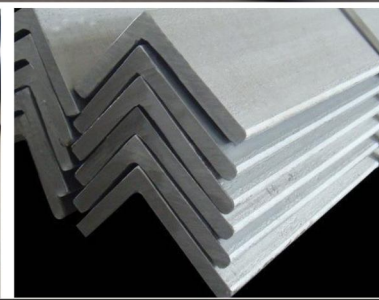

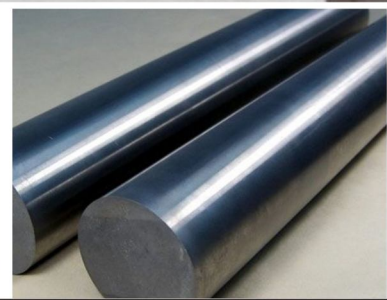

A fitting is a small part that needs to be attached to a larger piece for a proper function. Allianz stainless steel fittings are built to trending standards in the US, UK, Japan, and Italy, and include flanges, elbows, Tees, crosses, and end caps. We have developed a complete local supply chain with some of the most reputed steel suppliers in China such as Baosteel, Krupp Stainless, and JISCO. During the 21 years of growth, we have gradually gained industry-wide respect for the manufacturing of quality stainless steel pipe fittings. Our range of stainless steel products is wide and varied, available in different sizes.

06

Stainless Steel Profiles

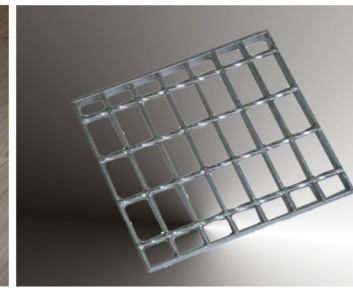

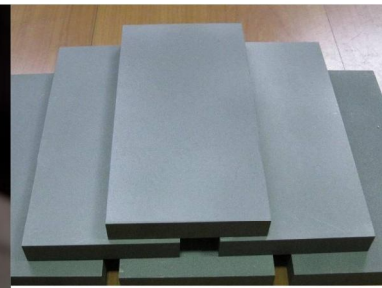

Depending on your taste and needs of your stainless steel system, you may also want to check out our offering of stainless steel profiles. In this section, we are going to present all typical steel sections we have which you can use to fabricate steel structures, including the stainless steel channel, bar and angle. Each stainless steel profile has a variety of sizes and materials for choice. Enter into a specific page to know more.

07

Custom Stainless Steel Parts

As a specialized stainless steel product manufacturer, we do all the machining work in house, using top-notch equipment including the shearing machine, bending machine, large-scale tube drawing machine, annealing and straightening equipment, brush finishing machine, stamping press, and hydraulic steel pipe straightening machine. By improving ourselves in every step of the manufacturing process, such as shearing, cutting, surface treating, forming, flat rolling, panel beating, welding and machining, We are able to control the quality of finished stainless steel parts.

08

Super Alloy

Super alloy is a solid solution of carbon, aluminum, titanium, silicon and manganese, and is a high strength austenitic iron chromium alloy. Its corrosion resistance is similar to that of austenitic stainless steel in aqueous corrosion. High nickel content makes it resistant to stress corrosion cracking. High chromium content makes it have better corrosion resistance and crevice corrosion resistance.
